

Murgab Depression Subsalt Assessment Unit 11540104

 Murgab Depression Subsalt Assessment Unit 11540104

 Amu-Darya Basin Geologic Province 1154

USGS PROVINCE: Amu-Darya Basin (1154)

GEOLOGIST: G.F. Ulmishek

TOTAL PETROLEUM SYSTEM: Amu-Darya Jurassic-Cretaceous (115401)

ASSESSMENT UNIT: Murgab Depression Subsalt (11540104)

DESCRIPTION: Unit encompasses Jurassic rocks of the central basin area in boundaries of Kimmeridgian-Tithonian salt formation. Known fields are located dominantly in northern marginal zones of the unit; the rest of its area is mostly undrilled.

SOURCE ROCKS: Two source rock sections are Lower-Middle Jurassic continental to paralic coaly clastics and Oxfordian anoxic marine shale. The clastic rocks are more than 1,500 m thick and contain as much as 2.5 percent of TOC with Type III kerogen and thin coals. Oxfordian shales are a few tens of meters thick and contain as much as 15 percent TOC and Type II kerogen.

MATURATION: Both Jurassic source rock suites are buried deep in the gas window and are at high stages of maturity.

RESERVOIR ROCKS: The main reservoir rocks are Oxfordian carbonates (including reef facies). Middle Jurassic sandstones are productive in several fields in the northern marginal areas.

TRAPS: All known and majority of expected fields are in reefs, structural traps, or combination of the two.

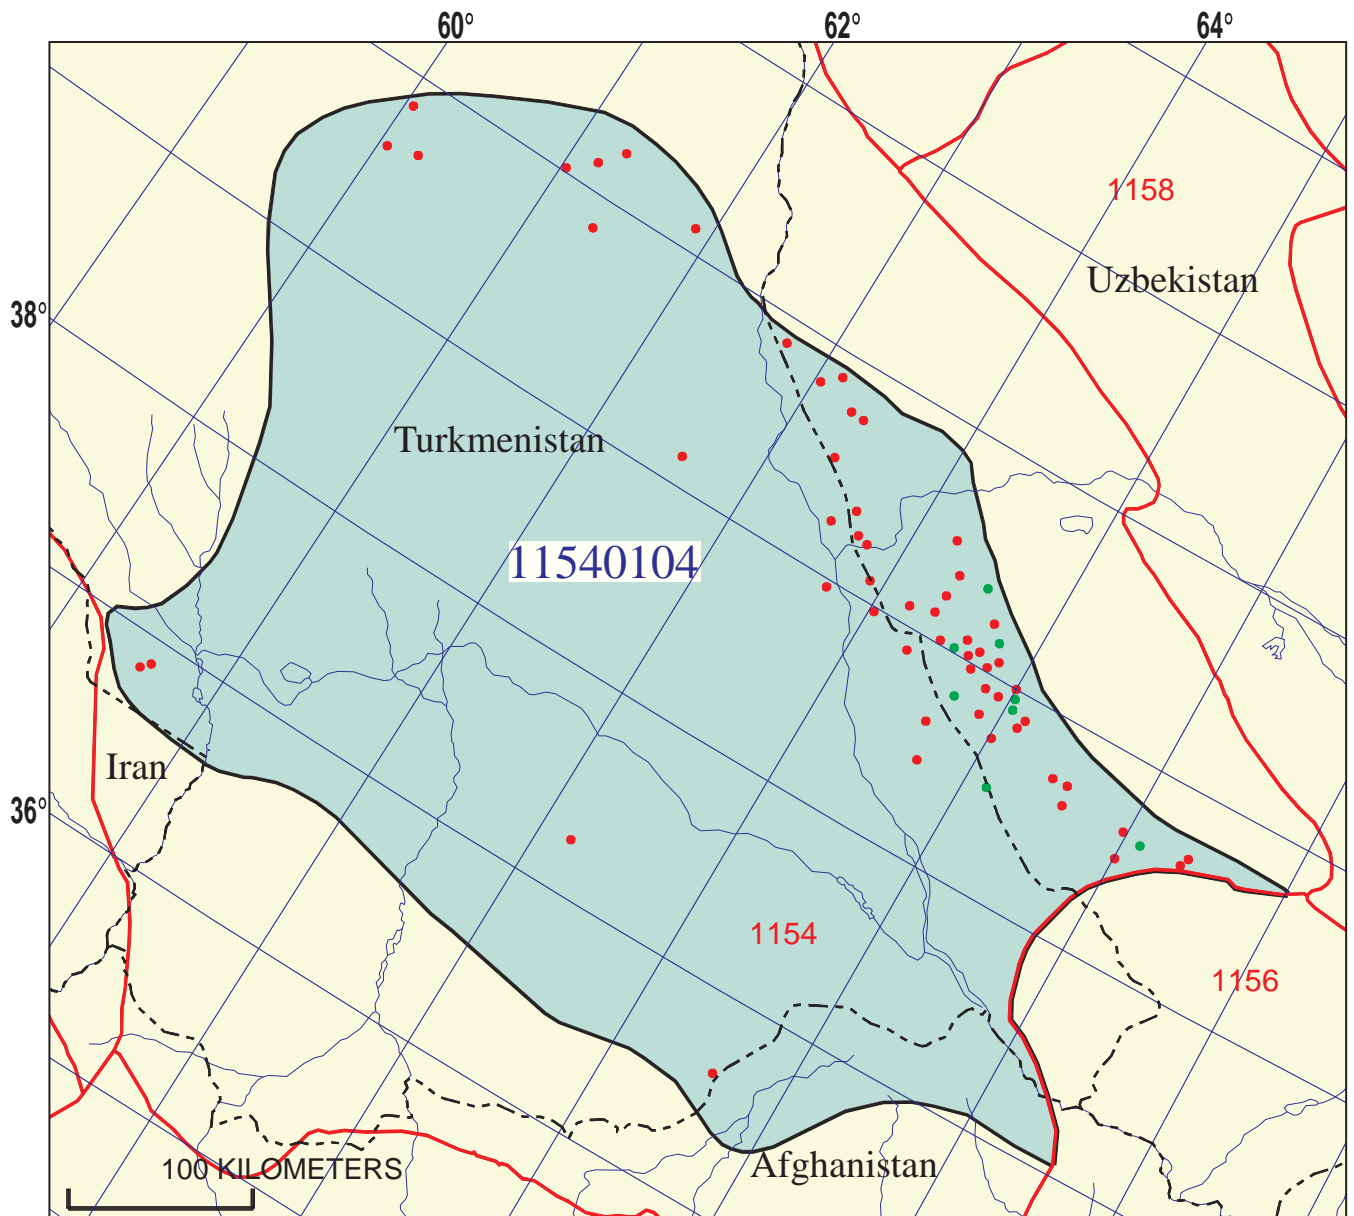

SEALS: The principal regional seal is the Kimmeridgian-Tithonian Gaurdak Formation composed of salt and anhydrite with local carbonate beds.

Murgab Depression Subsalt Assessment Unit - 11540104

EXPLANATION

- Hydrography
- Shoreline
- 1154 Geologic province code and boundary
- - - Country boundary
- Gas field centerpoint
- Oil field centerpoint
- 11540104 — Assessment unit code and boundary

Projection: Equidistant Conic. Central meridian: 100. Standard Parallel: 58 30

**SEVENTH APPROXIMATION
NEW MILLENNIUM WORLD PETROLEUM ASSESSMENT
DATA FORM FOR CONVENTIONAL ASSESSMENT UNITS**

Date:..... 7/27/99
 Assessment Geologist:..... G.F. Ulmishek
 Region:..... Former Soviet Union Number: 1
 Province:..... Amu-Darya Basin Number: 1154
 Priority or Boutique..... Priority
 Total Petroleum System:..... Amu-Darya Jurassic-Cretaceous Number: 115401
 Assessment Unit:..... Murgab Depression Subsalt Number: 11540104
 * Notes from Assessor Sixteen additional fields in Petroconsultants' database have no reserve data.
Field sizes not grown.

CHARACTERISTICS OF ASSESSMENT UNIT

Oil (<20,000 cfg/bo overall) **or** Gas (≥20,000 cfg/bo overall):... Gas

What is the minimum field size?..... 5 mmmboe grown (≥1mmboe)
 (the smallest field that has potential to be added to reserves in the next 30 years)

Number of discovered fields exceeding minimum size:..... Oil: 3 Gas: 42
 Established (>13 fields) X Frontier (1-13 fields) _____ Hypothetical (no fields) _____

Median size (grown) of discovered oil fields (mmboe):
 1st 3rd NA 2nd 3rd NA 3rd 3rd NA
 Median size (grown) of discovered gas fields (bcfg):
 1st 3rd 1104 2nd 3rd 434 3rd 3rd 175.5

Assessment-Unit Probabilities:

<u>Attribute</u>	<u>Probability of occurrence (0-1.0)</u>
1. CHARGE: Adequate petroleum charge for an undiscovered field ≥ minimum size.....	<u>1.0</u>
2. ROCKS: Adequate reservoirs, traps, and seals for an undiscovered field ≥ minimum size.....	<u>1.0</u>
3. TIMING OF GEOLOGIC EVENTS: Favorable timing for an undiscovered field ≥ minimum size	<u>1.0</u>

Assessment-Unit GEOLOGIC Probability (Product of 1, 2, and 3):..... 1.0

4. **ACCESSIBILITY:** Adequate location to allow exploration for an undiscovered field
 ≥ minimum size..... 1.0

UNDISCOVERED FIELDS

Number of Undiscovered Fields: How many undiscovered fields exist that are ≥ minimum size?:
 (uncertainty of fixed but unknown values)

Oil fields:.....min. no. (>0)	<u>1</u>	median no.	<u>3</u>	max no.	<u>6</u>
Gas fields:.....min. no. (>0)	<u>10</u>	median no.	<u>90</u>	max no.	<u>180</u>

Size of Undiscovered Fields: What are the anticipated sizes (**grown**) of the above fields?:
 (variations in the sizes of undiscovered fields)

Oil in oil fields (mmbo).....min. size	<u>5</u>	median size	<u>30</u>	max. size	<u>200</u>
Gas in gas fields (bcfg):.....min. size	<u>30</u>	median size	<u>250</u>	max. size	<u>120000</u>

Assessment Unit (name, no.)
Murgab Depression Subsalt, 11540104

AVERAGE RATIOS FOR UNDISCOVERED FIELDS, TO ASSESS COPRODUCTS

(uncertainty of fixed but unknown values)

<u>Oil Fields:</u>	minimum	median	maximum
Gas/oil ratio (cfg/bo).....	5000	10000	15000
NGL/gas ratio (bngl/mmcfg).....	30	60	90
<u>Gas fields:</u>	minimum	median	maximum
Liquids/gas ratio (bngl/mmcfg).....	15	25	40
Oil/gas ratio (bo/mmcfg).....			

SELECTED ANCILLARY DATA FOR UNDISCOVERED FIELDS

(variations in the properties of undiscovered fields)

<u>Oil Fields:</u>	minimum	median	maximum
API gravity (degrees).....	38	42	50
Sulfur content of oil (%).....	0	0.2	0.5
Drilling Depth (m)	2000	2500	3000
Depth (m) of water (if applicable).....			
<u>Gas Fields:</u>	minimum	median	maximum
Inert gas content (%).....	1	2	6
CO ₂ content (%).....	0.2	0.7	2
Hydrogen-sulfide content (%).....	0.5	2.5	4
Drilling Depth (m).....	3500	4500	6000
Depth (m) of water (if applicable).....			

**ALLOCATION OF UNDISCOVERED RESOURCES IN THE ASSESSMENT UNIT
TO COUNTRIES OR OTHER LAND PARCELS** (uncertainty of fixed but unknown values)

1. Turkmenistan represents 85 areal % of the total assessment unit

<u>Oil in Oil Fields:</u>	minimum	median	maximum
Richness factor (unitless multiplier):.....	_____	_____	_____
Volume % in parcel (areal % x richness factor):...	_____	50	_____
Portion of volume % that is offshore (0-100%):.....	_____	0	_____
 <u>Gas in Gas Fields:</u>	 minimum	 median	 maximum
Richness factor (unitless multiplier):.....	_____	_____	_____
Volume % in parcel (areal % x richness factor):...	_____	89	_____
Portion of volume % that is offshore (0-100%):.....	_____	0	_____

2. Uzbekistan represents 10 areal % of the total assessment unit

<u>Oil in Oil Fields:</u>	minimum	median	maximum
Richness factor (unitless multiplier):.....	_____	_____	_____
Volume % in parcel (areal % x richness factor):...	_____	50	_____
Portion of volume % that is offshore (0-100%):.....	_____	0	_____
 <u>Gas in Gas Fields:</u>	 minimum	 median	 maximum
Richness factor (unitless multiplier):.....	_____	_____	_____
Volume % in parcel (areal % x richness factor):...	_____	3	_____
Portion of volume % that is offshore (0-100%):.....	_____	0	_____

3. Afghanistan represents 5 areal % of the total assessment unit

<u>Oil in Oil Fields:</u>	minimum	median	maximum
Richness factor (unitless multiplier):.....	_____	_____	_____
Volume % in parcel (areal % x richness factor):...	_____	0	_____
Portion of volume % that is offshore (0-100%):.....	_____	0	_____
 <u>Gas in Gas Fields:</u>	 minimum	 median	 maximum
Richness factor (unitless multiplier):.....	_____	_____	_____
Volume % in parcel (areal % x richness factor):...	_____	8	_____
Portion of volume % that is offshore (0-100%):.....	_____	0	_____
