THE BOSTONIAN

— 1 —

A geological log diagram with six vertical columns representing different borehole sections. The left margin features a scale with numerical values (2, 18, 0, 8, 1, 6, 0, 5, 10) and vertical tick marks. The right margin has similar numerical values (3, 18, 0, 8, 1, 6, 0, 5, 10) and tick marks. The columns are labeled from left to right:

- Column 1:** Shows a hatched pattern at the top, followed by "LGY Br".
- Column 2:** Shows a wavy pattern at the top, followed by "ThK VF SOG".
- Column 3:** Shows a wavy pattern at the top, followed by "ThK VF SOG".
- Column 4:** Shows a wavy pattern at the top, followed by "CaCO<sub>3</sub>".
- Column 5:** Shows a wavy pattern at the top, followed by "CaCO<sub>3</sub>".
- Column 6:** Shows a wavy pattern at the top.

Annotations include:

- An arrow points to the right from the "ThK VF SOG" label in Column 2 towards the right margin, with the label "Br R MS".
- An arrow points to the right from the "ThK VF SOG" label in Column 3 towards the right margin, with the label "Br R MS" above "Gy Gn MS".
- An arrow points to the right from the "CaCO<sub>3</sub>" label in Column 4 towards the right margin, with the label "Gy Gn ms split".
- An arrow points to the right from the "CaCO<sub>3</sub>" label in Column 5 towards the right margin, with the label "Gy Gn ms Br R MS" and "Bls very A".
