Lime

A handwritten geological column diagram on lined paper. The column is oriented vertically, with thicknesses indicated by vertical arrows pointing upwards. The top of the column has a horizontal line with a double tick mark. The bottom of the column has a horizontal line with a single tick mark. The column is divided into several units, each with a label and associated symbols.

Top labels from left to right:

- Gm
- R
- R
- Lgy
- Silt

Thicknesses (approximate values):

- 20
- 8.6
- 10
- 30
- 10
- 10
- 40
- 9.6
- 10
- 8.6
- 10
- 95
- 50
- 60
- 70

Middle labels from left to right:

- Wh
- VF
- SOG
- V/F
- SOG

Bottom labels from left to right:

- Hole
- Complete
- R Hc g ls
- 95
