ANSWER

Geological cross-section diagram illustrating stratigraphy and borehole information:

- Top:** Non Cariing Miocene (contaminated) - Depth 130m
- Second Layer:** P1ung x10 - Depth 100m
- Third Layer:** Res - Depth 80m
- Fourth Layer:** Rm - Depth 60m
- Bottom:** Bottom

Annotations on the right side:

- Upper 210+ m unaltered from RTG 6g.
- Flank hole!

A vertical yellow line is present on the left side of the diagram.
